

LIVE

Imagine your wedding ceremony live on your Facebook page or YouTube channel. Friends, family, and loved ones watch as you walk down the aisle, exchange vows, and the moment you say I do. Limited space, travel difficulties, sickness, monetary issues...whatever the reason, Mane Content Live connects your special day with everyone you wish could be there.

CAPTURED BEAUTIFULLY

Coordination is key to a smooth event. Mane Content Live will meet with you, your photographer, and event planner. We will walk through your venue to discuss the who, when, and where of your ceremony; planning the optimum view for everyone. Then Mane Content Live will attend your rehearsal to get the final details.

YOUR MOMENT DOCUMENTED

The hour preceding your ceremony will be documented by three Mane Content Live cinematographers, providing three different perspectives: the bride, the groom, and the arriving guests.^{1,5} Additionally, a copy of your live ceremony will be posted on our secure DropBox server within 24 hours of your ceremony.² You may download your ceremony video whenever it is convenient for you. It will remain on our server for 30 days.
